## 4. Sample WhatsApp Conversation

Nevo: (photo) 133/77/61  
VitalWhisper: [redacted] Reading #13 recorded — 133/77 mmHg, 61 BPM  
Nevo: (voice) 'Feeling great after taking the pills.'  
VitalWhisper: [redacted] voice note transcribed & attached  
Nevo: stats  
VitalWhisper: [redacted] Average 133/83 mmHg (14 readings)

## 5. Why it resonates

- WhatsApp-native — zero learning curve for 50+ clientele
- Combines objective readings + subjective context
- Concierge-ready: PDF reports, caregiver sharing
- Multilingual voice transcription (TR/EN)
